

STI 2014 Leiden

19th International Conference on Science and Technology Indicators

“Context Counts: Pathways to Master Big and Little Data”

*The STI/ENID 2014 conference will be held **3 - 5 September 2014** in **Leiden, the Netherlands**. The conference will focus on the social science of STI indicators, the context in which indicators function, and the increased availability of data for indicators.*

We specifically invite submissions of research on the following topics:

- New and advanced indicators on measuring science in all its dimensions (including altmetrics)
- Theoretical foundations for measuring research in social science and in information science
- Science policy studies

Hence we welcome contributions on the following topics:

- altmetrics
- author level bibliometrics
- career development
- collaboration
- funding impact assessment
- interdisciplinarity
- networks
- patent analyses
- research evaluation
- research management
- research policy and science management
- science indicators
- science policy
- simulation studies
- societal impact or quality of research
- structuring science
- systemic and behavioral effects of evaluations and indicators
- technology and innovation studies
- theoretical foundations
- university indicators and rankings
- webometrics
